#### SYNOPSIS.

THE CITY—Mrs. Griffith will not appear in court today, and trial of C. Griffith for assault to murder will be again postponed. Riches gold mine yet struck by Charles Golmer, Gen. Landolt and others. Baptists give musical project another push along. W. F. Furlong was man who stabbed Wheeler McCurdy to his death. Striking butchers can't have back their jobs. Rush to High School over-achievers cars. Jeffries must fight winner of Johnson-McVey match. Reception to Gen. Miller. Occidental football eleven defeat Commercial High. Funeral of Former City Auditor Under. Brattain wins again at park. Sharp examination of Banker C. Lathrop of Panama. Supreme court grants writ of review in Vandell Griffith case. Barnett, who is accused of killing his wife, arraigned. Police catch Harry Johnson.

#### SOUTHERN CALIFORNIA—

Champane works undoing of two youths at Pasadena. Interests in Pacific Electric trolley announcements at Fullerton. Pretty "man-of-war" captured at Catalina. Supreme Court declines to act on Long Beach liquor search question. Human skeleton found with battered skull found in crater near Santa Ana. Manvel murder victim leaves quarter-million estate. Large property sale at Pomona. Hunter terribly wounded in San Bernardino mountains. Long Beach football eleven defeat Commercial High. Funeral of Former City Auditor Under. Brattain wins again at park. Sharp examination of Banker C. Lathrop of Panama. Supreme court grants writ of review in Vandell Griffith case. Barnett, who is accused of killing his wife, arraigned. Police catch Harry Johnson.

#### FOREIGN.

English discussion of Alaska boundary. France negotiating several arbitrations. Serbian refugees said to have received blood money. Colombia frittering away her chance.

#### GENERAL.

STERN—Nixon tells on stand how Schwab forced shipbuilding trust. Dowie calls men does for leaving Madison Square Garden. Circumstances of death of bequest of \$50,000 by Phil Bennett to Bryan. Western line passenger agents resolve against \$50 rate to coast. Harriman says stock values are seeking their natural level. Duke of Roxburgh, Max Gole's fiancé, says newspapers are impertinent and reporters beastly. Over 10,000,000 barrels of oil in Texas tanks. Samuel E. Morse, Indianapolis editor, killed by fall. Federal National Bank of Pittsburgh closes its doors. Elliot succeeds Mellen as president of Northern Pacific.

#### WASHINGTON—Secretary Hitch-

cock investigating Pacific Coast "land grab" conspiracy. Postmaster-General discharges two more culprits. Gain of Alaskan area. Senator Spooner in line for Cuban treaty.

#### UNION TRUST TO RESUME.

BALTIMORE (Md.) Oct. 21.—The directors of the Union Trust Company today decided to appoint Bennett to arrange for the company to resume business. In financial circles in this city today business settled to a normal basis.

#### COACHMAN THE THIEF.

HONOLULU, Oct. 21.—After nearly three months of detective work the thief who on the night of August 1 stole \$1,000 worth of jewels from Mrs. Samuel Parker, has been identified in the person of Benjamin Gallagher, a coachman in the employ of the Parkers. All of the stolen jewels have been recovered. The missing gem is a blue diamond valued at \$450.

## FINANCIAL VALUES SEEK THEIR LEVEL.

End of Historical Operations is Reached, Asseverates Harriman.

Southern Pacific Magnate Declares He Knows Nothing of Wall Street and Its Fits of Melancholy, but Does Believe in the Continued Prosperity of the Country. One Hundred and Four Millions of Dollars Spent.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, Oct. 21.—[Exclusive Dispatch.] "I am convinced that financial values are fast seeking their level, and that the operations of the future will not be so hysterical as they have been in the past," so said Edward H. Harriman today, when asked what he thought of the business of the United States, or of the operations on Wall street, and their probable effect on the business of the future. He said, with a smile, that he did not know anything about Wall street, and its fits of hysteria and melancholia, and he did not care to become initiated. In general, however, he declared his faith in continued prosperity. Regarding this, he said:

"The last five years have been a period of extraordinary preparation on the part of the railroads. During that time, nearly every railroad system of importance in the United States has been rebuilt on a generous plan, which will provide the transportation of the country for many years to come. This has been accomplished at an enormous expenditure, unheard of in the history of railroads. It has also been accomplished by the expenditure of billions of dollars, and it should be a matter of satisfaction that the railroads are doing all they can to promote prosperity by making the markets of the world available to the industries of every section of the country."

Harriman was in Chicago to attend the meetings of the directors and stockholders of the Illinois Central Railroad today and to confer with President Marvin Huggitt of the Northwestern, and local officials of the Harriman lines. It is understood that he is planning retrenchment of expenses and greater cooperation among the lines that make up the Harriman system. It is not expected that there will be any retrenchment of the Harriman lines, but that a large amount of new construction, partially planned, will not be undertaken until prices of material and labor are lower. Harriman is said to believe that so much money has been expended that the stockholders should now be given first consideration.

## SCHWAB SHOWS UP.

Hears the Testimony of Lewis Nixon Accusing Him of Causing Wreck of Shipbuilding Trust, After Mulcting It in Millions.

(BY THE ASSOCIATED PRESS—P.M.)

NEW YORK, Oct. 21.—[Exclusive Dispatch.] Lewis Nixon, one time president of the Shipbuilding Trust, a building company, at the hearing before Special Commissioner Henry D. Oliphant today told how Charles M. Schwab forced him to pay \$1,000,000 in bonds and stocks for Bethlehem steel plant, although he had originally demanded only \$500,000 in cash. In describing the transaction, Nixon brought in J. P. Morgan even more closely into association with Schwab than had D. Leroy Dresser. He said that when Schwab demanded \$1,000,000 for the plant, he and Dresser suggested that purchase be made on the basis of \$1,000,000 bonds of the company. Schwab declined he did not agree to this proposition until he had sent a cable to Morgan, who was in Europe. He did cable Morgan, and then the price was raised to \$2,000,000 in bonds and stock. Although Schwab figured the net earnings of the Bethlehem company at \$1,400,000 a year, no part of its income was paid into the United States Shipbuilding Company's treasury, even after it had been forced to pay an exorbitant price for the plant. The hearing was held in the office of Guggenheimer, Untermyer & Marshall where under Untermyer's skillful guidance, D. Leroy Dresser and boy dummy directors had already told startling stories of methods of the combine and voting of millions in stock by irresponsible promoters who used as puppets by the promoters. Schwab himself, was one of the earliest arrivals. He was accompanied by Max Pam and Lawyer W. D. Guthrie. Schwab and Pam were both sworn as witnesses but will not go on the stand for several days.

#### DETAILED PROCEEDINGS.

NEW YORK, Oct. 21.—Lewis Nixon, who from a naval constructor became a builder of warships and the president of the United States Shipbuilding Company, was the principal witness today, at the continuation of the hearing before Examiner Henry D. Oliphant, as to the affairs of the defunct corporation named. He did not finish his recital, but in the three plow that he was on the stand he went over much of the history of the corporation and the acts of the men prominent in its history. He confirmed the claim of the bondholders that the proposed expenditure of \$2,000,000 for the improvements at the Bethlehem Steel Works had been approved by the directors over his protest, and warning that the action might in the end leave the corporation without funds and wreck it. Nixon swore that after this expenditure was approved he had instructed the directors to remain away from a meeting. He said that an effort was made to show that the directors elected at the suggestion of

he might give some of them to Mr. Gates of Harris, Gates & Co. Schwab said he had to give \$2,500,000 of each kind of stock to J. P. Morgan & Co. Schwab said that those who had aided in the underwriting should have some of the promotion profits. The witness said he talked the matter over with Young, who said he would arrange to give Schwab \$100,000 in bonds and either \$100,000 or \$200,000 in stock. This commitment must have been in addition to the stock bonus which Schwab received as an underwriter. His recollection was that Gates was to get \$50,000 in bonds from Schwab.

#### CANDA'S TESTIMONY.

Charles Canda was the only other witness of the day, taking the stand before Nixon was called. He testified that the Canda Manufacturing Company, for which \$1,100,000 in cash and securities was paid, had a plant at Cartaret, N. J., built for the manufacture of car wheels, but that at the time of its purchase it was turning out some experimental work in motor carriages. He said that the plant would have been useful, in connection with some of the operations of the shipbuilding combination. He said thirty or forty men were employed at the time, and that he thought one hundred or more machines had been made.

The witness produced a copy of the option. The agreement for the sale of the plant for \$1,100,000 was made with J. W. Young, but the option was given to Nixon. The witness said the plant did not shipbuilding, but the sites and buildings could be used for certain of the combination's work. The Canda company received \$200,000 in cash \$300,000 in bonds, \$300,000 in preferred stock, and \$300,000 in common stock, and paid no commission on any of it. The witness said the Canda company had never shown any earnings.

Under cross-examination the witness testified that the Canda company had twenty-five stockholders. The \$200,000 received in cash was used to pay certain indebtedness. The sum was paid in three checks. Charles M. Schwab and Max Pam attended the hearing today. They came to hear much discussed for five years, if settled that bankers shall not carry their own fidelity insurance, or that of employees, and it arranged for a uniform system of bank money orders.

#### SIXTEEN SEAMEN ADRIPT ON OCEAN.

#### PORTION OF CREW OF WRECKED FRENCH BARK.

Missing Men Are Without Provisions But Chances Somewhat Favor Their Rescue—Peculiar Mistake that Caused the Vessel to Run on Rocks.

(BY THE ASSOCIATED PRESS—A.M.)

HONOLULU, Oct. 21.—[By Pacific Cable.] The French bark Constable de Richemont has been lost on the Pacific shore and sixteen of her crew are missing. Capt. Raub, with the carpenter, cook and three seamen, reached Kauai on Sunday in a small boat, and arrived here this morning. Capt. Raub reports that his ship struck the shoals at 4 a.m. on October 10 in a dead calm, and had to be abandoned twenty-four hours later. The missing men are in two boats, one in charge of the first mate, who is the son of the captain, with seven men, and the other, containing the boatswain and seven men. The boats are without provisions. The de Richemont was bound from Hongkong to a South American port.

The boat commanded by the boatswain and seven of the crew separated from the one containing Capt. Raub, October 14, and took a southerly direction. It is thought that the boat will reach Hawaii safely, as the light reported from the crater Maunaloa will serve as a guide from afar.

The other missing boat in charge of the first mate drifted off a north-easterly direction, where it will likely cross the path of oriental steamers and be picked up.

The French Consul has requested the Federal authorities to send out the tug Iroquois with the lifeboats. The wreck of the Constable de Richemont was due to a peculiar mistake, and repeated by the Constable de Richemont was very short. It is thought that the vessel can be saved by the assistance of a tug.

#### UNLUCKY VOYAGE.

SAN FRANCISCO, Oct. 21.—The bark was built in 1891 at Nantes, and was of 172 net tonnage. On September 5, a few miles off the coast of Japan, the bark was sighted by the Pacific Mail steamer City of Peking, flying signals of distress. She was then out eight days from Hongkong, having encountered nothing but calms, and was nearly out of provisions, and after being furnished with a supply of food stuffs proceeded on her journey.

#### YELLOW JACK'S RAVAGES.

Three Deaths in San Antonio, and the Fever Breaks Out in Young Ladies' Boarding School.

(BY THE ASSOCIATED PRESS—P.M.) SAN ANTONIO (Tex.) Oct. 21.—There have been three deaths from yellow fever in San Antonio since 4 p.m. yesterday. Autopsies were held today. There is one case in the city at St. Mary's Hall, a young ladies' boarding school, but it is convalescent. Thousands of people left the city tonight.

#### IRONCLAD QUARANTINE.

(BY THE ASSOCIATED PRESS—P.M.) HOUSTON (Tex.) Oct. 21.—The city of Houston and the counties of Dewitt, Victoria, Fayette, Bee, Neches, Comal and Hays today established an ironclad quarantine against San Antonio.

#### LAREDO BULLETIN.

(BY THE ASSOCIATED PRESS—P.M.) LAREDO (Tex.) Oct. 21.—The yellow-fever bulletin issued tonight shows nine cases; 15 deaths; 8 total deaths to date. An official bulletin from Nuevo Laredo reports twelve new cases, six suspicious cases and four deaths yesterday.

## AMERICAN BANKERS.

Gov. Pardee Gives Them Welcome.

California Theater Beautifully Decorated in Honor of the Distinguished Men.

Two Important Questions Decided, One Against Insurance, the Other for Money Orders.

Association Has Prospected During the Year—Addresses and Official Reports.

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO, Oct. 21.—[Exclusive Dispatch.] The twenty-ninth convention of the American Bankers' Association opened today before a large audience at the California Theater, which was beautifully decorated with huge American flags and a profusion of choice house flowers. A myriad of colored lights decorated the stage long to be remembered for its picturesque splendor. On the stage were grouped State and municipal officials and men of prominence in financial circles from every state in the Union.

The convention today decided two important questions, one of which has been much discussed for five years, if settled that bankers shall not carry their own fidelity insurance, or that of employees, and it arranged for a uniform system of bank money orders.

Five years ago, a committee was appointed to study and report on a scheme for establishing one great surety company under the control and supervision of the Bankers' Association. The plan comprised an issue of indemnity bonds to all bank employees, who handle funds. The committee reported today and presented an amendment to the constitution, providing for the formation of a surety company. Better opposition developed at once. The Executive Committee issued a report against the plan, and then it was attacked right and left on the floor of the convention.

The adoption of the uniform bank money-order system will be a great benefit to all banks except those of large cities. All banks in the association are placed in a money-order league and will complete for business with express companies and the postoffice. A reduced-rate schedule will be adopted, and it will be provided that bank money order may be cashed at any bank in the country, and eventually in the world.

#### PROCEEDINGS IN DETAIL.

(BY THE ASSOCIATED PRESS—A.M.) SAN FRANCISCO, Oct. 21.—The actual business of the twenty-ninth annual convention of the American Bankers' Association began this morning, when the delegates assembled in the California Theater. The auditorium of the theater was comfortably filled when President Caldwell Hardy raised his gavel at 10:30 o'clock, and later, when the delegates assembled to augment the numbers in attendance. The theater and stage were handsomely decorated with flowers, evergreens and formal arrangements.

President Hardy in calling the convention to order said in part:

"The unprecedented prosperity of the past years brought us last fall to a climax of high prices for commodities and securities. The same sunshine which brings to its full fruition or rich harvests also fosters the taxes. So, among the substantial evils of our prosperity have sprung up artificial commercial structures which have failed signally to stand the test of time. Over-sanguine, perhaps, some of us have been lulled into a false sense of security, and have been capitalizing and recapitalizing schemes of all kinds and inducing people with paper profits to invest in speculations which they were unable to carry. The boom had gone too far, the natural reaction set in, and a general house-cleaning began, where it was most needed, in the winding out of overcapitalization and inflated securities."

"We have gone through a period of liquidation in speculative circles of the most drastic character, without result, except to the few who have gotten too far beyond their depth. The process is not yet clear, and the way is now strewn with crippled and indigestible securities, but business conditions are sound."

"If there is any class of men more than others who should never take speculative risks, it is those who are handling the earnings and savings of others, and the seeking of deposits at high rates of interest, which can only be earned by speculative investments, is a menace to sound banking. Saving depositories should carefully shun such institutions, of which there are, however, happily but few."

"The vast majority of us feel assured we have had, so far, all the currency we have needed, and that an increase of it just at this time would tend to a further increase in speculation. The enormous production of gold in the last few years has been utterly lost sight of, or, if studied, will furnish food for thought."

"The advantages claimed for the bank circulation of other countries over our bond-secured notes, have much merit from a scientific standpoint, and would have more from a practical standpoint, if the element of risk could be eliminated, which has brought distress in some cases. The practical question, if, could it be successfully grafted onto our banking system, and if so, how? The idea of a 'central bank' of a 'branch banking system' is repugnant to the ideas of the government and institutions, and unless I mistake the temper of our people, will never be

LAUGHLIN YIELDS.

Tammany Patches up Peace With Brooklyn Leader, but Terms of Surrender Are Secret.

(BY THE ASSOCIATED PRESS.—P.M.) NEW YORK, Oct. 21.—Peace has been declared between the Democratic organization of New York City and the Tammany organization of Brooklyn and the Democratic organization of New York City over the matter of candidates for Congress and President of the Board of Aldermen.

THURSDAY, OCTOBER 22, 1903.

FOUR MORE MEN SAVED.

South Portland Survivors Picked Up at Sea.

Unable to Aid Them Saw Many Comrades Sink to Death.

Report on Eppinger Frauds.

After Unlicensed Dentists.

Fined for Contempt.

(BY THE ASSOCIATED PRESS.—P.M.)

SAN FRANCISCO, Oct. 21.—The

Spokane Spokesman brought to this port

the bodies of four survivors of the

wrecked steamer South Portland, who

were picked up at noon yesterday about

eighteen miles south of Cape Blanco,

and were taken to the shore. They were

found clinging to a rude raft, and were

all but exhausted when rescued. Their

names are Arthur Ravens, second officer;

Charles Blomberg, P. Johansen and

On Gjundersen, seamen.

The list of the missing ones of the

crew as previously printed does not

contain the names of the above. This

was probably due to the fact that

before sailing some substitutions

in the crew were made. Eight other

men who were on the raft with the

survivors when it left the South

Portland, succumbed and sank as their

raft support was cast about by the

waves. Their names are not known

as follows:

Several hours after these men were

found on board the Spokane, the star-

boarded lifeboat of the wrecked vessel,

in which seven or eight men left the

steamer, was seen floating

on the ocean. It is now believed

that all of the passengers and crew

are already accounted for, having

been rescued.

Second Officer Ravens tells his experience

as follows:

"When it was seen that the steamer

was doomed, Capt. McIntyre or-

dered me to man the starboard life-

boat and save all the people possible.

I got four men in the boat as it hung

by the davits. I saw that the

steamer's boat on the port side of the

raft, had capsized. I aided in right-

ing it and then returned to my own

boat, only to find that a number of

men had crowded into it, breaking

down its fastenings and striking the

raft. I saw six or eight

men struggling in the water. They

were in fighting the boat, and got

very close to the boat. I don't know

how many were with him.

BUILT A RAFT.

"I left me in charge of the ship.

There were eleven men, whom I at-

tempted to work building a raft. We

used the timbers, each of which was

about six feet long, and we

fastened them together by lashing

across each end. The raft was

about six feet long and four feet

wide. I saw that the

steamer's boat on the port side of the

raft, had capsized. I aided in right-

ing it and then returned to my own

boat, only to find that a number of

men had crowded into it, breaking

down its fastenings and striking the

Musical Instruments.

Musicians appreciate the value of a really good musical instrument, for it is the only kind that permits the proper display of musical skill and talent on the part of the player. We sell none but high grade

Violins, Guitars, Banjos, Mandolins, Band Instruments

and other wind and string instruments. Satisfaction is a foregone conclusion if you buy anything musical from us, and particularly if it is the case in small musical instruments. We sell them on easy monthly payments if desired.

We are exclusive agents for the genuine Chickering Piano in Boston. Beware of imitations.

**Corset Steels 3c**  
Good corset steels, 4 or 5 hooks; all lengths; black, white or gray; today only, per pair, 3c.

## RACES GAVE GOOD SPORT.

Money Taken by Second Choices and Favorites.

Brattain Won Again from Many Good Horses.

Woodburn Captured Trotting Race—Kenilworth Runs Today—O her Events.

The Young Man with the Blonde Moustache was not in evidence at the races yesterday, but notwithstanding his absence the public had a very fair day of it with the bookmakers, picking some of the winners and playing them strong. On the other hand some neglected second favorites came across and a lot of the sporting money went into the coffers again. It was a case of horse and horse.

The card was a fairly good one, and some very good horses were on it. The second running race was the best of the day for betting, and was a good money poured in on it, for the sportsmen to make every horse a favorite, but two, and one of these, the outsider to the betting, finished second and thus made up a number of combinations. There was fairly good play on all of them, and the winner turned up in E. M. Brattain, who has won three races out of four starts.

The day was not the best for a racing crowd; for the air was chilly and the advance guard of a fog charged in over the city late in the afternoon and dampened the ardor of many of the 2000 people at the track. They had an interesting day of it, however, if for no other reason than in noting the start-up reverses in form of several of the well-known performers. The most notable instances of this condition were in Grall, Cambracer and Fox Lake. Neither of these apparently good things finished in the money, and many cursed their poor showing after betting freely on their chances.

The best-looking thing on the card was the second running race. It was called the Chandler Selling Stakes for three-year-olds and upwards, and was at seven furlongs. The entries were Grall, Grall, Cambracer and Mirale II. It was a very hard race to pick, and those who liked one horse could easily find a dozen sports who favored another. For this reason no one really knew just what to do, but Grall was the best-looking and was picked by 2 to 1. Brattain fluctuated around 2, and the others were nibbled at in greater or less quantities and all were played. As it turned out, however, Brattain was the only horse in the race. He got away second to Mirale, but immediately shot out like a catapult and at the quarter mile Cambracer, the next nearest horse, by five lengths. He made this distance in twenty-three and one-quarter sec-

onds, which beat Kenilworth's time on Tuesday. He was still five lengths ahead of Cambracer at the half mile, but slowed up to almost two at the turn. There Cambracer stopped and Heather Honey took his place, followed by Tarpey. They made a fast run through the stretch, but Brattain was too far ahead and won by almost two lengths. Grall got away third and something, the favorite dropped to last place, and then ran in behind the bunch on the turn and finished fourth. Chandler's ride was a remarkably stupid one, and Henderson's on Cambracer was no better.

**DERWEY SECOND ONCE MORE.**  
Ernie, the good colt of Jimmy Curl, who ran from last place on his first

start and finished second, was tipped to the wise ones to win, and he did it very easily. George Dewey was an odds-on favorite, but apparently likes to run second and did so again yesterday. He has started four times at different distances and finished second four times. He is a cinch bet for a place, but will win some day when least expected. They were in the fourth race at a mile and a sixteenth. Invictus broke first, and then the long shot, Dwight Way, assumed command and led around to the turn by plenty of room. Little Knapp then sat down on Ernie, and he raced past Cambracer and Dewey on the outside and landed in the lead, finishing easily two lengths ahead of Dewey.

Best Man was surely it in the last, it being understood that the race was between him and Marex. Marex led into the stretch, but could not stand the fast run, and succumbed to both Ernie and Best Man. The well-played Thibe was back in the rack.

Nona B. was the real article in the first event and won very easily from Madame Bishop at 4 to 1. Nona jumped into the lead after the start and never least. The favorite, E. Weiman, bucked through for 7 yards each. C. Spaulding made several good runs for 10 yards and finally bucked the center for another touchdown. Weiman kicking the goal.

In the second half Commercial kicked off, but C. Spaulding carried the ball back to the 25-yard line. Merrill Gordon kicked and sent runs for 15 yards, and by a series of line snafus E. Spaulding was sent over for the third and last touchdown.

The special features of the game were Merrill's end runs and cross backs and also backs by E. Spaulding and Weiman. Commercial had a very weak line, unable to resist pressure, while the backs were strong and did excellent work.

**HART TO SEE MORLEY.**  
WANTS LOS ANGELES PARK.  
(BY THE ASSOCIATED PRESS—P.M.)  
SAN FRANCISCO, Oct. 21.—James A. Hart, president of the Chicago National League Club, arrived in San Francisco today. It was supposed that he had come at this time to further the peace negotiations which he started during the summer between the Coast League and the Minor League Association, but if Hart has anything new to offer he is keeping the information under his own hat.

He said today that his trip was purely one of pleasure, the only business he had in view being to complete arrangements with Morley for spring dates and the use of the Los Angeles ball park for his team to practice in.

**SEATTLE'S FIFTEENTH STRAIGHT.**  
NORTHERNERS BEAT LOOLONG.  
(BY THE ASSOCIATED PRESS—P.M.)  
SEATTLE (Wash.) Oct. 21.—Seattle made it fifteen straight by beating Los Angeles today. The locals outplayed the visitors at the bat and in the field, and ran bases daringly. The batting of Lumsley and the base running of Brashear were features. Brashear stole home while Gray was "winding up" in the seventh. Seattle..... 13 0 0 0 0 4 2-10  
Hits, 14; errors, 4.  
Los Angeles..... 0 0 0 0 0 0 1-4  
Hits, 7; errors, 4.  
Batteries—Barber and Byers; Gray and Spies.

**PORTLAND-SAN FRANCISCO.**  
(BY THE ASSOCIATED PRESS—P.M.)  
PORTLAND (Or.) Oct. 21.—But for an error at first base Portland would have shut San Francisco out today. The game was a pitchers' battle between Iberg and Butler, each of whom allowed only five safe hits. Iberg played the faster holding game, however, making seven assists. Score: Portland, 3; hits, 5; errors, 4.  
SAN FRANCISCO, Oct. 21.—Errors, 1. Batteries—Butler and Arthur Anderson; Iberg and Zarfores.

**SACRAMENTO-OAKLAND.**  
(BY THE ASSOCIATED PRESS—P.M.)  
SACRAMENTO, Oct. 21.—Oakland and Sacramento played a tie game up to the eighth inning today, with the score standing 1 to 1. In the eighth in-

Weiman, bucked through for 7 yards each. C. Spaulding made several good runs for 10 yards and finally bucked the center for another touchdown. Weiman kicking the goal.

In the second half Commercial kicked off, but C. Spaulding carried the ball back to the 25-yard line. Merrill Gordon kicked and sent runs for 15 yards, and by a series of line snafus E. Spaulding was sent over for the third and last touchdown.

The special features of the game were Merrill's end runs and cross backs and also backs by E. Spaulding and Weiman. Commercial had a very weak line, unable to resist pressure, while the backs were strong and did excellent work.

**HART TO SEE MORLEY.**  
WANTS LOS ANGELES PARK.  
(BY THE ASSOCIATED PRESS—P.M.)  
SAN FRANCISCO, Oct. 21.—James A. Hart, president of the Chicago National League Club, arrived in San Francisco today. It was supposed that he had come at this time to further the peace negotiations which he started during the summer between the Coast League and the Minor League Association, but if Hart has anything new to offer he is keeping the information under his own hat.

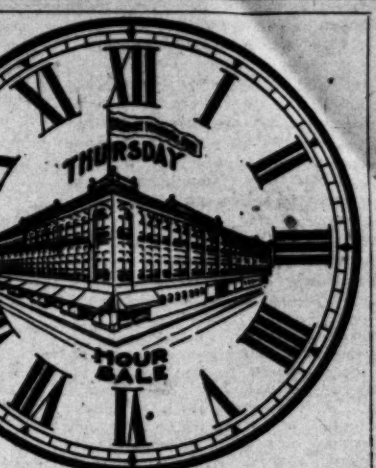

He said today that his trip was purely one of pleasure, the only business he had in view being to complete arrangements with Morley for spring dates and the use of the Los Angeles ball park for his team to practice in.

**SEATTLE'S FIFTEENTH STRAIGHT.**  
NORTHERNERS BEAT LOOLONG.  
(BY THE ASSOCIATED PRESS—P.M.)  
SEATTLE (Wash.) Oct. 21.—Seattle made it fifteen straight by beating Los Angeles today. The locals outplayed the visitors at the bat and in the field, and ran bases daringly. The batting of Lumsley and the base running of Brashear were features. Brashear stole home while Gray was "winding up" in the seventh. Seattle..... 13 0 0 0 0 4 2-10  
Hits, 14; errors, 4.  
Los Angeles..... 0 0 0 0 0 0 1-4  
Hits, 7; errors, 4.  
Batteries—Barber and Byers; Gray and Spies.

**PORTLAND-SAN FRANCISCO.**  
(BY THE ASSOCIATED PRESS—P.M.)  
PORTLAND (Or.) Oct. 21.—But for an error at first base Portland would have shut San Francisco out today. The game was a pitchers' battle between Iberg and Butler, each of whom allowed only five safe hits. Iberg played the faster holding game, however, making seven assists. Score: Portland, 3; hits, 5; errors, 4.  
SAN FRANCISCO, Oct. 21.—Errors, 1. Batteries—Butler and Arthur Anderson; Iberg and Zarfores.

**SACRAMENTO-OAKLAND.**  
(BY THE ASSOCIATED PRESS—P.M.)  
SACRAMENTO, Oct. 21.—Oakland and Sacramento played a tie game up to the eighth inning today, with the score standing 1 to 1. In the eighth in-

**PUNTS AND KICKS.**  
OCCIDENTAL WON EASILY.  
The second Occidental team found the Commercial High School eleven very easy victims yesterday at football and won by the score of 18 to 0. It was a one-sided contest from start to finish, and was really little more than a practice game for Occidental. Occidental kicked off and on the come back Commercial was held for down. With very little trouble Occi-

## First Quality Granite Ware At Tinware Prices

No Seconds; Every Piece Perfect

## JOCKEY AND THEIR AGENTS.

CALL ARRANGEMENTS DEMAND [BY DIRECT WIRE TO THE TIMES] NEW YORK, Oct. 21.—[Exclusive Dispatch.] The Jockey Club is a up on dealing with the question of jockeys and their agents. A man he up with one or two selling places a rattling good rider. There is scramble for the boy's services, as soon the individual with the ride awakens to a realization of the fact that he is "it." He is in a position dictate to owners, and does so dicta He wants to know all about the horse his boy is to ride, and often demands a bet down.

This does not refer to any particular individual, but includes all, including the fathers of the jockeys. The club thinks there ought to be dictating through agents. Let an arrangement be made for first call second call, if the jockey so desires. Secretary Boden of the Jockey Club said today: "Let the Jockey Club point an official whose special duty shall be to enroll jockeys who do outside mounts. Let the official be a record of all engagements made the riders. If an owner wants a services of Fuller for the first race Saturday, let him make known wishes to the Jockey Club's representative. The engagement list is complete and if Fuller is not engaged he is signed to the owner making the application, subject, of course, to the of of stables having permanent arrangements with him."

**Fitzsimmons Arrives.**  
SAN FRANCISCO, Oct. 21.—Bob Fitzsimmons has arrived to represent his fight with Gardner in this city on Monday.

Office: Times Building, First and Broadway.  
Printed at the Los Angeles Postoffice for transmission by mail matter of the second class.

## BUSINESS.

Activity in the cities is clearly indicated by the local bank clearing, which amounted to a million and a quarter dollars, being greatly in excess of the figures for the corresponding period of last year.

Chicago market for wheat, after a decline, closed at 80c. Corn, higher. Notwithstanding the news, bank failure at Pittsburgh and a reaction in the market, the tone of New York stock market was actually an evidence of a measurable reason of confidence.

PRIZE-FIGHTING EVIL.  
The prevailing sentiment of the community on the subject of prize fighting is clearly shown in the fact that the Council is being overwhelmed with petitions asking that prize fighting be prohibited.

THE BAPTIST.  
At the convention of the Baptist church, Rev. J. H. Smith, pastor of the church, delivered an address on the subject of the "Baptist and the World."

present disgust because of the decision against them is no more natural, although, it is true, must be spoken, the manner in which they are giving vent to their disappointment is rather childish.

After mature reflection, they can hardly fail to perceive that a judicial interpretation of the treaty of 1825 must necessarily have led to the same decision as that rendered by the Alaska Boundary Commission, as the London Times points out. The blame, if there be blame, rests with the framers of the treaty, and not with those upon whom was placed the unpleasant task of interpreting it.

Pool Ware, who is also Pension Commissioner in addition to being more of a poet than many of those who break into the big madrigals, has been calling his clerks up on the carpet and giving them a serious lecture as to the uses of the "pencil" and the "pen." He has not "pencil" that will tell so long as he is at the head of the shebang, and that if the employees of the government who are serving under him want to keep their jobs they must get in line and hustle, and try to crowd the old man out of the "pencil" and the "pen." The point is well taken, and this commission, which is a department of the government will some day be operated upon that same basis of the betterment of the service and the betterment of the people, the dear people have to pay out for taxes.

Among a people truly wise and patriotic the consumption of home products is steady and consistent. Not by fits and starts, when someone agitates the subject, but every day and all the time, by ordering goods produced at home in preference to the same class of goods, but no better, that are made elsewhere. The Long Beach Press says that the people of Long Beach have been following the pointer at Los Angeles have followed them so far that they have finally become hopelessly lost in an impenetrable labyrinth of financial embarrassment.

A stupendous timber grab has been set up in Oregon. The grab is not new, but it is a new one. It has been a victim of it for many a long year. Should Uncle Sam succeed in getting a goodly grip of those Oregon timber lands, he might take a trip down this way with his sleuths and find something doing of considerable interest to the public well.

It has been brought out in court that an iron working concern which has been paid a dividend was taken into the shipbuilding trust on a purchase price of \$1,000,000, and still we wonder that there is financial indignation in the city. This being a good day for the shipbuilding trust, it is not surprising that there is financial indignation in the city.

We appear to be getting mighty near the point where it is to be ascertained whether the man who grows freight can ship it by whatever line he pleases, or whether he must submit to the rule of the "big" line. The question was settled, once for all.

Stout City soda fountains are said to be causing an increase of the drinking habit among the ladies of that burg. This accounts for the large shipment of soda water to Stout City, and one in which it can certainly take a good deal of business.

The press list has been cut down again by the railroads, but as there were no passes issued last year (see rules and regulations) we are having some trouble in getting the list. We have found many a material to work on under the new pass-order.

Five prominent Missourians have been arrested for complicity in naturalization frauds. If there is anything in the way of crime that has escaped from the net of the law, it is this. The opening meeting of the music section under Mrs. Eugene Park.

Long Beach Ebbell.  
At a meeting of the Long Beach Ebbell Society Monday afternoon, Miss Cunningham of Los Angeles delivered an interesting paper on the subject of the Bible as literature. It is expected that she will give a series of talks on this subject.

Belgium will permit Uncle Sam to have a free run in her trade, provided he will look out for her interests in the Congo. This is a good day for Belgium, probably it would be just as well to think the proposition over.

Probably Parson Dowie doesn't object to answering questions, per se, but he has to draw the line some place, and it was right there where Carrie Nation rose up and began to interrogate.

There was a time when it looked as if Wall Street had become the bone of the country, but at this writing it doesn't seem to be able to work up enough nerve to say no to a goose.

Dr. Parkhurst has given Dowie a roast which resembles some of the same sort of things that were dealt out to him. There's something quite like getting even on somebody.

If you haven't anything else to figure out you might begin right now, figuring on how old Ann is. And it would be just the same sort of a "sum" if her name were Jane.

A Santa Barbara man has fled his own freddie in order to escape his wife's predilection. Some men do appear to be almighty lucky in getting away from things.

When Teddy's Terrors get their by-ones, they will doubtless become much less terrible. A Terror with a by-law attached to him is a Terror tamed.

Anarchy broods over Colombia, and nothing doing on the canal. It looks as if Colombia were going to have a mighty tough winter on her hands.

If there is any place that Carrie Nation hasn't been thrown out of, will it please hold up its hand. Even Elvira has given her the loss-over.

The drying of prunes has been completed in Santa Clara county, and the fruit is full of "um, as well as the populace."

The President's Cabinet is much pleased at the outcome of the Alaska boundary arbitration business. Same here.

Los Angeles would be a much nicer town to live in next summer if we had our full quota of beautiful trees, with their grateful shade, growing along the thoroughfares of this otherwise lovely city.

## "TWEENTIMES."

BY E. A. BRINNSTOOL.

"THE MIDNIGHT MARAUDER.  
Ever feel, when you're a-sleepin',  
Snuggled down in bed at night,  
Somethin' 'neath th' bedclothes creepin'?

With a diamond, sharpest blade—  
With a lively sort o' rippin',  
Crawlin', jumpin', friskin', skippin',  
Makin' you as mad as sin?

An' you scratch around an' wonder  
'Twasn't yer cousin, how in thunder  
That small, pesky  
Flea could ever  
Gotten in?

Aln't no use to lie there scratchin',  
Back and forth, 'till you're all a-tremblin',  
If yer anxious to be catchin',  
That small critter, ere he's fled;

Best o' bed you can't find him,  
An' you'll have to lay there ag'in',  
With that flea-a-playin' chase  
Back an' forth between th' livin'—  
Geef it gives a man th' shivers!

But you've got to  
Best o' grace!  
Out o' bed you crawl, a-swearin',  
With yer temper mighty hot!  
Turn the bedclothes down, preparin'—  
For give the critter a good throut!

There's the critter—see him jumpin'!  
Holy smoke, but ain't he humpin'!  
Back and forth, now, smash him—  
Geef it gives a man th' shivers!  
But you've got to  
Best o' grace!

What he nips you  
Every night!  
A KENTUCKY paper says that Kentucky  
is getting around this here bun  
to—(Hawkins)

Now that the water floods are  
abating in New Jersey and New  
England, the flood of financial ruin  
has overtopped its banks at Baltimore.

If Dowie should happen to reform  
New York, what Tammany have  
to live for?

An English meteorologist says bad  
weather will exist for ten years. Huh!  
Guess this fellow never heard of California climate.

THE HUNTING.  
The hunting season is open now.  
Chicago has gone dry.  
And the "disease" the bootlers all  
Are on the hunt for "traff."

THE "GOOD OLD DAYS."  
We talk about the "good old days."  
And wonder what they were.  
Back to those queer, old-fashioned ways  
Of doing things, are we?

Don't talk about the "good old days."  
I'm glad that you're all here.  
And that our brand-new-fangled ways  
Of doing things, are we?

For without these things in demand,  
Say, what would people do?  
The thinking on their heads?  
How would the women of the land  
Look, if today they'd face  
A spinning wheel, or have to stand  
The old-time fireplaces?

And oh, what would the gas man do,  
If he were to find his gas meter  
Without the chance to pester you  
Each month, with his big bill?

Don't talk about the "good old days."  
I'm glad that you're all here.  
And that our brand-new-fangled ways  
Of doing things, are we?

## ENGLISH DISCUSSION

OF BOUNDARY DECISION.

DEPLORE ITS NECESSITY WHILE

COMMENDING ITS JUSTNESS.

Fact that Chief Justice Alvestone  
Signed the Award Accepted as Proof  
of Its Correctness—Attitude of Canadian  
Commissioners Criticized.

(BY THE ASSOCIATED PRESS—A.M.)  
LONDON, Oct. 21.—(By Associated Press.)  
The Times says Lord Alvestone is the only commissioner who could fairly be said to have approached the subject absolutely without bias, save for the natural bias of a Briton in favor of British interests.

"We doubt if after mature reflection," says the Times, "the Canadians will feel they could have hoped for any more favorable results if they had brought an explanation of actual position, and arbitration. As it is the matter has been dealt with in the most satisfactory way of friendly negotiations between the two nations."

The gain of definitely settling a question offering perennial opportunities for discord between the two great and ancient nations is, nevertheless, any disappointment at the decision which, after all, practically leaves things as they were found.

The comment of the afternoon newspapers on the boundary decision is similar to that of the morning papers. "Regrettable, but honorable," sums up the general tenor.

The St. James Gazette says it considers the fact that Chief Justice Alvestone signed the award to be proof of the correctness of the decision. "We have the fullest confidence, therefore, that the decision we deplore was a justly required by the justice of the case."

# A WAR HERO IS HONORED.

General Miles Greeted at Public Reception.

Happiest Days of His Life Spent in Los Angeles.

Speaks on Victories of Peace. Practices Prosperity for Southern California.

The Chamber of Commerce was gay with color and aglow with lights last night in honor of the reception tendered by Stanton Post, Grand Army of the Republic, to Gen. Nelson A. Miles. The rooms were glorified with masses of the national colors, and the delicate greenery of pepper haws mingled with the Stars and Stripes in pleasing adornment. Cut flowers and potted plants were used in profusion, and a canopy of pepper haws was caught up in fishnet over the parlor where Gen. Miles received the greetings of the citizens.

Several hundred people crowded into the main exhibition room of the Chamber of Commerce to await the arrival of the guest of honor. At the head of the stairs at the west entrance was stationed the Veteran Fire and Drum Corps, and they rendered patriotic airs. As Gen. Miles and his escort made their appearance there was a burst of applause.

The visitors passed into the reception-rooms and here an address of welcome on behalf of Stanton Post was delivered by Rev. Dr. J. L. Pittner. Dr. Pittner spoke in a happy vein and said in part: "The city of Los Angeles delights to welcome, and Stanton Post is pleased to honor one so long a prominent figure as a model American citizen and soldier, a splendid representative of American manhood, the hero of three wars, and best of all, a member of Stanton Post."

"The career of our honored guest has been a source of pride to us. The grateful public now says he may rest awhile, unless the demands of civil war, which God forbid, should again call upon this noble chieftain to give his best endeavors to the country he has already so nobly served."

"In the name of our citizens and of Stanton Post I welcome you to Los Angeles and extend to you the liberty of the city and its heart-felt best wishes."

Gen. Miles responded in a clear, forceful voice that was easily heard by the large assembly. He said: "It is something quite unusual for me to talk while mounted on a chair; my talking in public has mostly been done on horseback or in the field, but as this brings me all the nearer to Old Glory, born in heaven, I don't object." The general had mounted a chair and his head was beside the folds of the American flag that decorated the walls. His tribute to the flag brought forth great applause.

"It seems like coming home to one's own relatives, and a great comfort, as this, composed as it is of the brave men, comrades with whom I have had the honor to serve in the days of our common country. No stronger friendship than that which bound heart and soul together during the days of the great civil conflict, and which is manifest in the G.A.R., has ever existed, nor do I believe it will ever exist again."

"The crisis of the great conflict was gathering for over 100 years, and during all this time the statesmen and citizens had endeavored to solve the great problem. The prayers of Christian people ascended to heaven to protect this land from the scourge of war, and appeals were made to the love of justice and liberty in man. Finally the appeals lost their force, and you men placed all on the altar of liberty and solved the great question whether this republic was capable of self-preservation, or was founded on a rope of sand. The question of the sustaining of the American republic had to be decided by the great arbiters of war."

"More than two millions of young men below the age of twenty-one years came up to the standard that stood for the civil and liberal government such as we enjoy in this country. Such a series of battles, of great sacrifice and serious losses for the sake of liberty does not find a parallel. But when peace was declared, brave, heroic Americans clasped hands over the black-mouthed canons and declared that we are an invincible people, from the Lakes to the sea, and from the Atlantic to the Pacific."

"This was the spirit that extended from the Potomac to the Rio Grande. Then you turned back to your old homes; and you turned your faces to the West, and showed that you could again become peaceful citizens of the great republic and fulfill all the duties of American citizenship as truly in peace as you did when you fought for the preservation of the unity of the country. You have shown in the past forty years that you can carry out victories in peace as well as in war."

"It has been my fortune during the past year to have visited Russia, Siberia, Europe, and then come back again to my own country; and with such an object lesson one can realize the difference between being a citizen of the mightiest republic on earth and being a citizen of a country subject to the despotic power of a single man."

"Certainly there can be no more valuable gift to transmit to your children than the blessing of citizenship in this glorious country. Could you have any sentiment more grand and beautiful than that expressed in the Constitution and represented by this glorious emblem, the American flag?"

"I congratulate you in living in the best country in the United States. Of all I have seen, and it has been my good fortune to have visited many sections of this wonderful country, I freely say I have seen no spot on earth that compares with Southern California. It is blessed in many respects above others. We cannot tell, for a certainty what the future has in store for us, but I know of nothing that can stand in the way of the future development of this country on a marvelous scale, and a continued prosperity."

"I thank you for this cordial welcome and greeting to my old home, for such I am proud to call it. Some of the happiest years of my life were spent here."

Following the addresses there was an informal reception of the comrades and a greeting of old friends. Gen. Miles met many personal friends, and renewed acquaintances made in past years.

The Reception Committee of Stanton Post was composed of Commodore W. B. Daubenspeck, J. M. Gentry, J. H. Bartlett, E. W. Edgerton, D. Davenport, N. C. Whinn, E. A. Routh, C. W. Hyatt, O. T. Thomas, F. J. Crossley, O. L. Durand, O. S. Wood, J. C. Whittington, George B. Conell.

Some men pay \$75 for a suit. Some pay \$5.

Neither gets his money's worth.

Double breasted sack suits; unusually popular this year; in black or blue, \$15 to \$30.

Mixtures, \$15 to \$27.50.

And every dollar you spend here buys more than mere clothes; it buys SATISFACTION.

**FASTEST ELECTRIC CAR**

German Invention Goes One Hundred and Twenty-five Miles an Hour—Can Scarcely be Seen

BERLIN, Oct. 2.—By succeeding in driving an electric railway car at the rate of 125 miles an hour for a distance of fourteen miles, German engineers have achieved an ambition which, for the last three years, they have been seeking to realize by constant experimenting, and the expenditure of an immense amount of money.

Of course no one maintains that the frightful speed made by the Siemens-Halske car on the Berlin-Zooen experimental track has any practical value, except that it demonstrates the possibilities of the electric traction. It is expected confidently, however, that the success of the recent trial will lead to the speedy construction of the long-planned Berlin-Hamburg line, on which it is thought that an average speed of ninety-four miles an hour will be safely maintained.

On the Siemens-Halske car's trial trip it was driven by its constructor, Dr. Reichel, and there were also on board several engineers and German officers, all of whose lives, by the way, were insured by the railway company for an amount equal to ten times their annual income. The electric car attained its greatest speed at Dahlewig, when it was traveling at the rate of 201 kilometers, or over 125 miles an hour. To watch the passing of this flying mass gave one a curious sensation. It went by in a perfect cloud of dust and splinters, and with a crash that was deafening. The velocity was so great that one got only a vague idea of the outlines of the juggernaut, and it was several hundred yards away almost before those watching quite realized that it had passed.

The cars with its trucks, motors and gearing, weighs ninety-two tons, and was driven by what is equivalent to 2000 horse power. The fourteen-mile track upon which it ran is straightaway, and composed of ninety-four pound rails resting upon rock-embedded sleepers.

**RAILROAD NOTES.**

Formal action has been taken by the shareholders of the Pacific Electric Railway Company increasing its capital stock from \$10,000,000 to \$20,000,000. The new funds thus secured are to be used in furthering the mammoth plans of the company already begun.

It is thought that Mr. Huntington will be here at least another week yet. Notice was issued by General Manager Muir of the Los Angeles Railway Company yesterday for its various departments that the Griffith-avenue line will be ready for operation on November 1. To that end everything is now being put in readiness.

General Traffic Manager Biddle of the Santa Fe arrived from Chicago yesterday.

The Los Angeles Traction Company has a large force of men relaying its track on Eighth street west of Hill street.

Nothing new occurred yesterday in the government's orange-rout suit against the railroads. The necessary papers are being prepared to ask the Circuit Court to compel Mr. Parkyn to produce the percentage table, which he refused to do on Tuesday.

The ship Milton Park of Glasgow, which sailed from Liverpool March 31 for Fremantle, Australia, has, with her crew of twenty-four men, been given up as lost.

seventy-one business offices, equipped after the most approved manner of modern business structures. The five floors above this are equipped in a similar manner.

On the east front roof a roof-garden café is provided for, 50x90 feet in size, while the west front top contains two modern studios, for photographic or other purposes. There will be four passenger elevators in the building.

A black and white portrait of a man with a mustache, wearing a suit and tie. The portrait is enclosed in an ornate, circular frame with decorative scrollwork at the top. The man is looking slightly to the right of the camera.

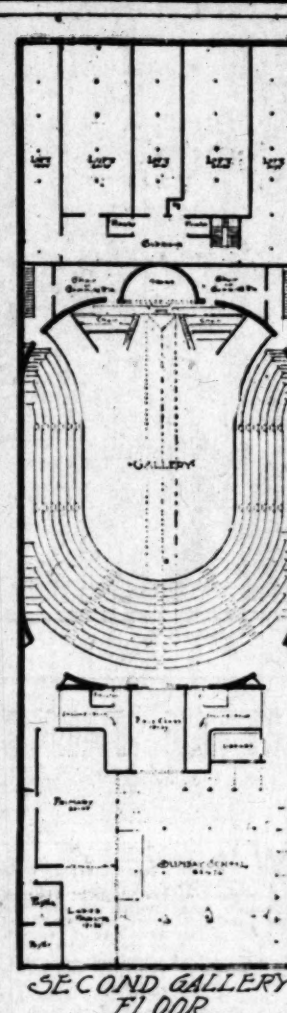

ROBERT J. BURDETTE. PROPOSED TEMPLE BUILDING

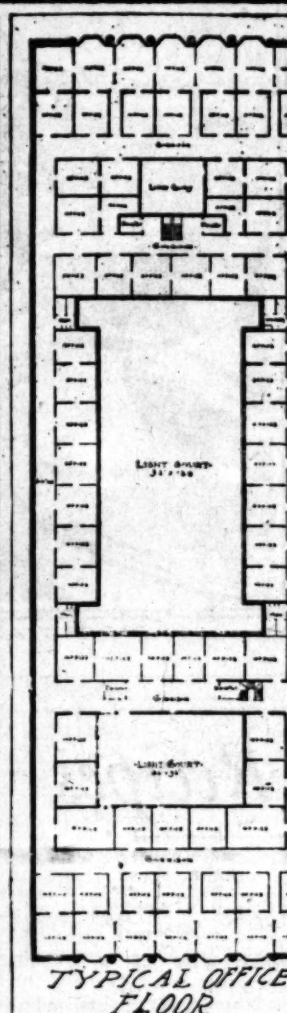

**BASEMENT PLAN.**

MAIN FLOOR PLAN.

## SECOND GALLERY

TYPICAL OFFICE  
FLOOR

ARRANGEMENT OF PROPOSED TEMPLE AND CONVENTION HALL—AUDITORIUM AND GALLERY IN CENTER. PASTOR BURDETTE IN CIRCLE.

George Giles, Richard Green, D. C. Wells, P. P. Frost and Mrs. C. K. Crowell. It is said that these \$10,000 will be used to purchase the property comprising Temple corporation, and that many capitalists here and in the East are anxious to subscribe. The church called its subscribers immediately upon the completion of the books.

During the afternoon, speeches were made by C. R. Harris and Mattison R. Jones. Mr. Harris dwelt principally upon the financial condition of the church, and its prospects as a financial success. He made the statement that although the church had a large membership, it was unable to figure out the probable income of such a building, their results were not satisfactory.

Mr. Jones spoke for about an hour upon the probable future of Temple Church, and the increasing value of the city. He pointed out that the church had a large membership at the present time, but that members were taken into the church without any knowledge of the church, and he believed this was only an indication of the rapid growth of the church along the same lines.

The promoters believe that the city, of course, will have to make some concessions to tourists, must have these attractions augmented materially by the city, and that the city will be able to hold high-class concerts and entertainments, and religious, social and educational events.

A building of this sort, equipped with one of the finest organs in the world, would be a great attraction for builders to place here, must necessarily bring to this city the best class of material, and would be a great attraction as well as great conventions which would do good to the city in a thousand ways. The Temple Building Company proposes to build a building of this sort, and entertainments, as a regular feature of income for the perpetuity of the city.

The primary object of the concern is to secure suitable quarters for Temple Baptist Church, the largest of the city.

Robert J. Burdette is pastor. The pres-

and on this account the music lovers, every season or so, have been losing great attractions, such as are rarely seen here. Great political meetings, and large local gatherings of all sorts equally feel the need of sufficient accommodations.

**TROUBLE AHEAD.**

A little bird sat on a telegraph wire And said to his mates "I do declare If wireless telegraphy comes into vogue, We'll all have to sit on the air."  
—London Fishing Gazette.

**A Land of Paradoxes.**  
 "The Kentuckian, who considers it his God-bidden duty to beat you in a horse trade or a lumber deal," said Rev. John H. Crosser at the Kenwood Evangelical Church last week, "keeps all of the commandments, and the devil much better than his northern brethren."  
 Rev. Mr. Crosser, it seems, has recently returned from a vacation in the Blue Grass State which he found to be a land of paradoxes. The native, he disclosed, "would not test you with an umbrella, but he would kill you for calling him a hard name; he drinks moonshine whisky, yet shows no signs

The Temple Building Company will be a joint stock company, organized under the laws of the State of California, with a capitalization of \$1,000,000, divided into 10,000 shares of a par value of \$100 each. The stock will be sold at par, and the funds will be at once used for the erection of a commodious and attractive and well-ventilated school, all the space of which will be devoted to a kind consideration to the Baptist Church, and to other benevolent and industrial purposes.

It is proposed to erect the Temple Building in the business center of Los Angeles, the site being on the corner of the intersection of two of the principal parallel streets.

The structure will be 100 feet long and 40 feet wide, eight stories in height, and with a total height of 100 feet. The building will be a special structure, one story upon each roof facing the street and the other four stories of pressed brick and terra cotta will be used in the building, and the architectural details will be of the classical style. The building will resemble slightly the great Chicago Auditorium, as far as the main structure is concerned.

The services of the promoters are donated without charge, both in the public interest, and in the knowledge that the majority of which the most of them are members it has been estimated that the annual expense account for the Temple of the Holy Spirit, and the general maintenance, will reach a total of \$25,000. Gross revenue, estimated at \$100,000, less the estimated and is placed at \$100,000. This leaves a net revenue of \$75,000, or approximately \$100,000. The Temple of the Holy Spirit, with a capital investment of \$1,000,000. In addition to this, the Temple corporation would have the rental of the big building, which has been estimated at from \$10,000 to \$25,000. With the lesser of these

### THEY DO NOT FAIL

In a sea of uncertainty, ambition gone, sickness rampant, the world is suffering from a variety of diseases; one day buoyant, the next day despondent, the human organism is being tried without number, all ending in the same weary eyes in another direction. The world is held out to all suffering humanity.

### Ford's Homeopathic Remedies

are absolutely—positive. "They Do Not Fail." The truest method of treating disease is to use the force of the human organism against the force of the system, which generally requires the use of drugs. It does not advocate, because each particular illness has its own cause, the use of the same remedy straight to the spot, slowly but surely, until the system is re-established, and tissues, and builds one up from a hopelessness to pulsating, radiant health and bodily comfort.

[illegible]

It is believed that the net profit of the undertaking would be raised to 74 per cent.

It is believed that the fact that the city is in a commercial depression, so that revenues could not fall below a point which would be sufficient to pay the interest on the bonds, is a very important fact that in other cities of the United States commercial property would be sold at a price as high as 12 to 15 per cent. per annum.

The size of the Temple building will create a business district, and the new structure will constantly house nearly 1000 tenants, and the auditorium will be much in demand.

The new structure will be a great factor for the city in attracting conventions. Many a great national body, religious, educational, or otherwise, has been turned away from Los Angeles simply because there was no place sufficiently large to accommodate them. The new temple has attracted the big Methodist committee to Los Angeles was the talk of convention hall, and the fact that the city is so centrally located is a great advantage.

Tossed about on a sea of uncertainty, ambition gone, sick from a disease, or may be a complication of diseases; one day buoyant, the next depressed; doctors and patent medicines tried without number, all ending in a mirage of lost hope. Stop! Turn your wearisome eyes in another direction, where relief in a genuine form is held out to all suffering humanity.

## Dr. DeFord's Homeopathic Remedies

Because the cure is absolutely—positive—“They Do Not Fall.”

Homeopathy is the truest method of treating disease. It does not react on the impulse of one force of the human organism against the other, or act adversely on any part of the system, which generally occurs after the ordinary drastic treatment of drugs. It does not advocate, nor is it the basis of one prescription, because each particular illness has its own peculiar or special remedy, and like the shot of the experienced marksman, the homeopathic remedy goes straight to the spot, slowly but surely healing the diseased and inflamed tissues, and builds one up from a hopeless, gnawing, maddening condition, to pulsating, radiant health and bodily comfort. The remedy consists of
